

## Work Health & Safety Policy

Quarry Mining is committed to providing a safe and healthy working environment for all workers and the general public.

The objectives of our Safety Policy are:

- To achieve an accident free workplace.
- To make health and safety an integral part of every operation performed.
- To consult with our workers to ensure health and safety is considered in all planning and work activities.
- To involve our employees in the decision making process through regular communication, consultation and training.
- To provide a continuous program of education and learning to ensure that our employees work in the safest possible manner.
- To identify and control all potential hazards in the workplace through hazard identification and risk analysis.
- To ensure all potential accident/incidents are controlled and prevented.
- To provide effective injury management and rehabilitation for all employees.

The success of our health & safety management is dependent on:

- Pro-active planning of all work activities with due consideration given to implementing safety controls that are suitable to each given situation.
- Understanding the total work process and associated safety risks.
- Ensuring the work teams totally committed to achieving our objectives.
- Ensuring that open and honest communication exists between management and all workers.
- Establishing measurable objectives and targets to ensure continued improvement aimed at elimination of work related injury or illness.
- Complying with relevant WHS legislation and other requirements

Planning, control and verification of Quarry Mining safety management system in accordance with the uniform principles of the AS/NZS 4801 Standard will achieve this.

This is the Work Health & Safety Policy of Quarry Mining dated 16<sup>th</sup> September 2016
